Swedish Modules Backbone infrastructure

Alternativ 1

Explanation

= Fibertrunk multimode OM4 pre-terminerad with MPO

= 19" 1RU fiber enclosure space for 12 st. UHD modules.

= 19" 4RU fiber enclosure space for 48 st. UHD modules.

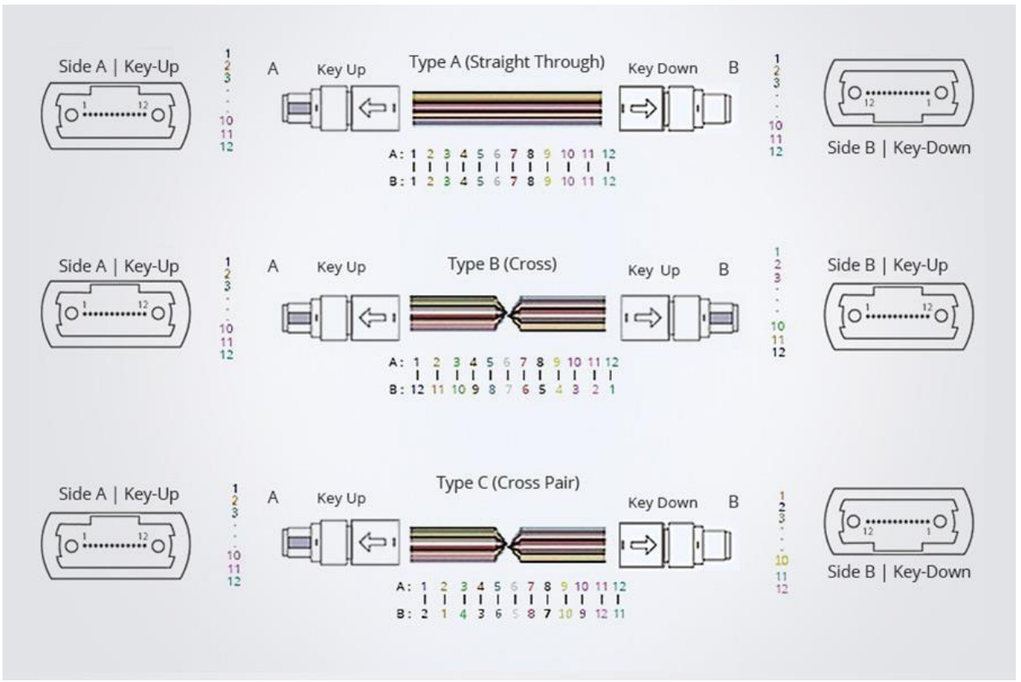
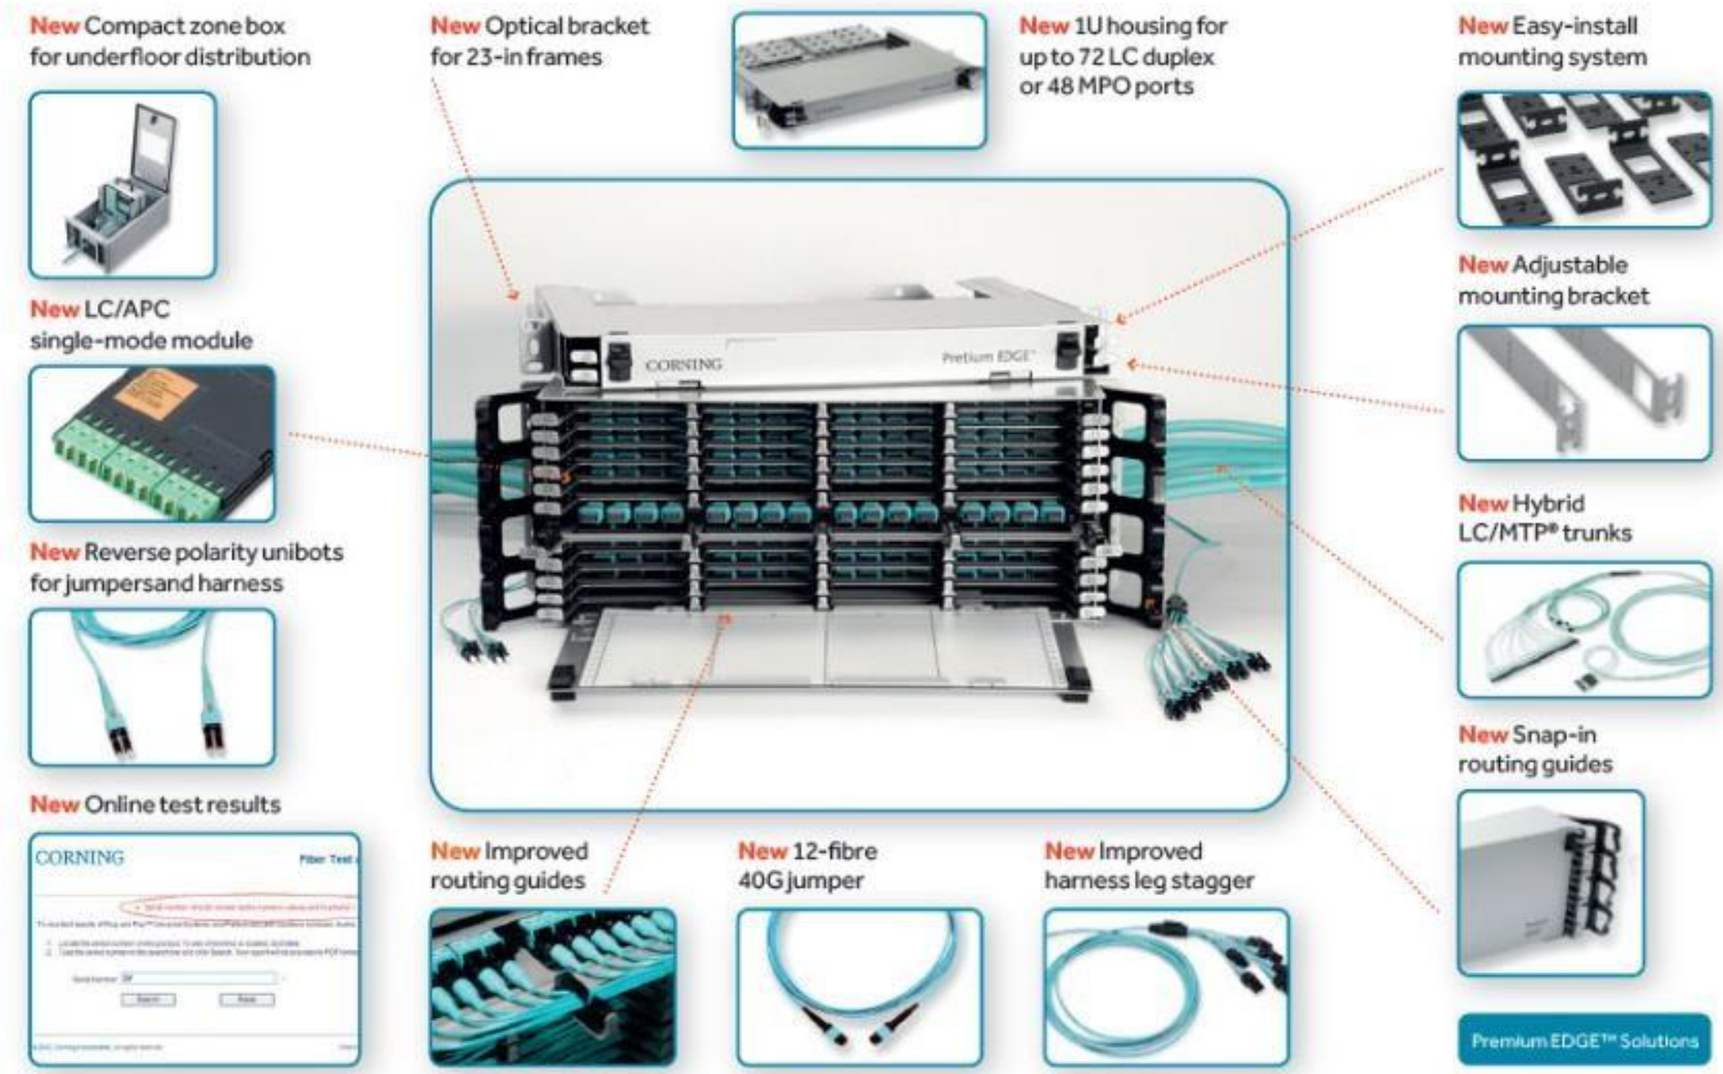
Note: The Type-A cable is illustrated with a twist. This is to align the trunk cable entering the A adaptors in the cassettes in the Key up position.



Connectivity Method A for duplex signals

Pretium EDGE Solutions


Corning Optical Communications LANscape® Pretium® EDGE (Evolved-Density, Growth-Enabled) solutions are pre-terminated optical fiber cable systems that bring your data centre to a completely new level. Pretium EDGE systems contain optical fiber trunks, connectors, modules, housings and jumpers. These innovative solutions increase revenue and reduce costs and risk through 85% faster installation and enable moves, additions and changes (MACs) up to 25% faster compared to traditional cable systems.
