

2026 OCP Global Summit

Onsite Badge Transfers

We've heard from the Community that you want greater flexibility to have different staff attend different days of the Summit, rather than assigning one person to a full-week pass. To accommodate this, we will offer a limited onsite badge transfer option.

How it works

Beginning onsite **Tuesday, Oct 13 at Noon**, an eligible attendee who is finished attending the Summit can transfer the remainder of their pass to another person:

1. The current attendee goes to the Help Desk at Registration, presents their photo ID, and surrenders their physical badge.
2. Registration provides a **one-time transfer code**.
3. The code can be given to another person, who uses it to register for the remainder of the Summit. The person surrendering their badge is responsible for providing the new attendee with the registration code.
4. The new attendee pays a **\$100 transfer fee** when registering and receives a new badge.

Transfer requests will not be accepted before Tuesday at Noon.

Eligibility & Rules

- Each badge may be transferred **one time only**.
- Transfer codes are **one-time use** and cannot be reused.
- Badges that have been reprinted because they lost their original badge are not eligible for transfer.
- Complimentary Sponsor Tickets are the only “free” passes that are eligible for transfer.
- All other complimentary passes—including Speaker, Keynote, Project Lead, and similar registrations—are not eligible for transfer.
- Badge swapping or sharing outside of this process is prohibited. Companies found badge-swapping may lose access to the onsite badge transfer program.

Questions? Please stop by registration.
